## JUNMAI GINJO NIGORI

Founded in 1902, the Saiya Brewery is one of the most award-winning sake breweries at Japanese and international competitions. This is an *usu nigori*, meaning it contains a low percentage of rice solids. The Saiya Brewery makes their *nigori* in this style, from *junmai ginjo* sake so that flavor and finesse are not compromised by the *nigori* elements alone.

**Taste:** Drier than most *nigori*; bright, lively fruitness on palate, crisp finish.

**Serve:** Lightly chilled.

**Pair:** Steak, Indian and Thai food, strawberry shortcake.

**Region:** Akita
